PLAN DESIGN AND BENEFITS - CA EPO 80 (Open Access)

What's Not Covered

This plan does not cover all health care expenses and includes exclusions and limitations. Members should refer to their plan documents to determine which health care services are covered and to what extent. The following is a partial list of services and supplies that are generally not covered. However, your plan documents may contain exceptions to this list based on state mandates or the plan design purchased.

- All medical or hospital services not specifically covered in, or which are limited or excluded in the plan documents;
- Charges related to any eye surgery mainly to correct refractive errors;
- Cosmetic surgery, including breast reduction;
- Custodial care;
- Dental care and x-rays;
- Donor egg retrieval;
- Experimental and investigational procedures;
- Hearing aids;
- Immunizations for travel or work;
- Infertility services, including, but not limited to, artificial insemination and advanced reproductive technologies such as IVF, ZIFT, GIFT, ICSI and other related services, unless specifically listed as covered in your plan documents;
- Non-medically necessary services or supplies;
- Orthotics except as specified in the plan;
- Over-the-counter medications and supplies;
- Reversal of sterilization;
- Services for the treatment of sexual dysfunction or inadequacies, including therapy, supplies, counseling and prescription
- Special duty nursing; and
- Treatment of those services for or related to treatment of obesity or for diet or weight control.

Pre-existing Conditions Exclusion Provision

This plan imposes a pre-existing conditions exclusion, which may be waived in some circumstances (that is, creditable coverage) and may not be applicable to you. A pre-existing conditions exclusion means that if you have a medical condition before coming to our plan, you might have to wait a certain period of time before the plan will provide coverage for that condition. This exclusion applies only to conditions for which medical advice, diagnosis or treatment was recommended or received or for which the individual took prescribed drugs within 6 months.

Generally, this period ends the day before your coverage becomes effective. However, if you were in a waiting period for coverage, the 6 month period ends on the day before the waiting period begins. The exclusion period, if applicable, may last up to 6 months from your first day of coverage, or, if you were in a waiting period, from the first day of your waiting period.

If you had less than 6 months of group or three months of individual (including Medicare, Medicaid and Medi-Cal) of creditable coverage immediately before the date you enrolled, your plan's pre-existing conditions exclusion period will be reduced by the amount (that is, number of days) of that prior coverage.

If you had no prior creditable coverage within the 6 months for group or 3 months for individual prior to your enrollment date (either because you had no prior coverage or because there was more than a 6 months of group or 3 months of individual gap from the date your prior coverage terminated to your enrollment date), we will apply your plan's pre-existing conditions exclusion.

PLAN DESIGN AND BENEFITS - CA EPO 80 (Open Access)

In order to reduce or possibly eliminate your exclusion period based on your creditable coverage, you should provide us a copy of any Certificates of Creditable Coverage you have. Please contact your Aetna Member Services representative at 1-888-802-3862 for MC plans if you need assistance in obtaining a Certificate of Creditable Coverage from your prior carrier or if you have any questions on the information noted above.

The pre-existing condition exclusion does not apply to pregnancy nor to a child who is enrolled in the plan within 31 days after birth, adoption, or placement for adoption. Note: For late enrollees, coverage will be delayed until the plan's next open enrollment; the pre-existing exclusion will be applied from the individual's effective date of coverage.

This material is for informational purposes only and is neither an offer of coverage nor medical advice. It contains only a partial, general description of plan benefits or programs and does not constitute a contract. Aetna does not provide health care services and, therefore, cannot guarantee results or outcomes. Consult the plan documents (i.e. Group Insurance Certificate and/or Group Policy) to determine governing contractual provisions, including procedures, exclusions and limitation relating to the plan. With the exception of Aetna Rx Home Delivery, all preferred providers and vendors are independent contractors in private practice and are neither employees nor agents of Aetna or its affiliates. Aetna Rx Home Delivery, LLC, is a subsidiary of Aetna Inc. The availability of any particular provider cannot be guaranteed, and provider network composition is subject to change without notice.

Certain services require precertification, or prior approval of coverage. Failure to precertify for these services may lead to substantially reduced benefits or denial of coverage. Some of the benefits requiring precertification may include, but are not limited to, inpatient hospital, inpatient mental health, inpatient skilled nursing, outpatient surgery, substance abuse (detoxification, inpatient and outpatient rehabilitation). When the Member's preferred provider is coordinating care, the preferred provider will obtain the precertification. Precertification requirements may vary.

If your plan covers outpatient prescription drugs, your plan may include a drug formulary (preferred drug list). A formulary is a list of prescription drugs generally covered under your prescription drug benefits plan on a preferred basis subject to applicable limitations and conditions. Your pharmacy benefit is generally not limited to the drugs listed on the formulary. The medications listed on the formulary are subject to change in accordance with applicable state law. For information regarding how medications are reviewed and selected for the formulary, formulary information, and information about other pharmacy programs such as precertification and step-therapy, please refer to Aetna's website at Aetna.com, or the Aetna Medication Formulary Guide. Aetna receives rebates from drug manufacturers that may be taken into account in determining Aetna's Preferred Drug List. Rebates do not reduce the amount a member pays the pharmacy for covered prescriptions. In addition, in circumstances where your prescription plan utilizes copayments or coinsurance calculated on a percentage basis or a deductible, use of formulary drugs may not necessarily result in lower costs for the member. Members should consult with their treating physicians regarding questions about specific medications. Refer to your plan documents or contact Member Services for information regarding the terms and limitations of coverage.

Aetna Rx Home Delivery refers to Aetna Rx Home Delivery, LLC, a subsidiary of Aetna, Inc., that is a licensed pharmacy providing mail-order pharmacy services. Aetna's negotiated charge with Aetna Rx Home Delivery may be higher than Aetna Rx Home Delivery's cost of purchasing drugs and providing mail-order pharmacy services.
