Using Your Platinum 2000 Dental Plan

Anthem Blue Cross is committed to helping you maintain a high level of dental health. Early diagnosis and preventive care are vital in maintaining good dental hygiene and regular dental care contributes to your overall fitness and well-being. All our dental plans emphasize routine examination so that minor dental problems can be treated before more extensive problems develop. By taking advantage of your plan's benefits, you ensure your long-term dental health.

Once enrolled in the Platinum 2000 dental plan, you can go to any dentist or dental specialist in our provider network to receive the plan's highest reimbursement levels. With more than 13,000 providers across California, our extensive network may include your present dentist. You can also go to a provider outside of the network

and still receive generous reimbursement for covered services. When you choose a dentist from outside the network, your out-of-pocket costs may be higher.

Additional plan features providing you more convenience and value include:

- No filing of claim forms required for network providers
- Direct access to dental specialists
- Emergency out-of-area coverage
- Information about SpecialOffers discounts on health and wellness products and services from independent vendors
