PayChoice Bill Pay

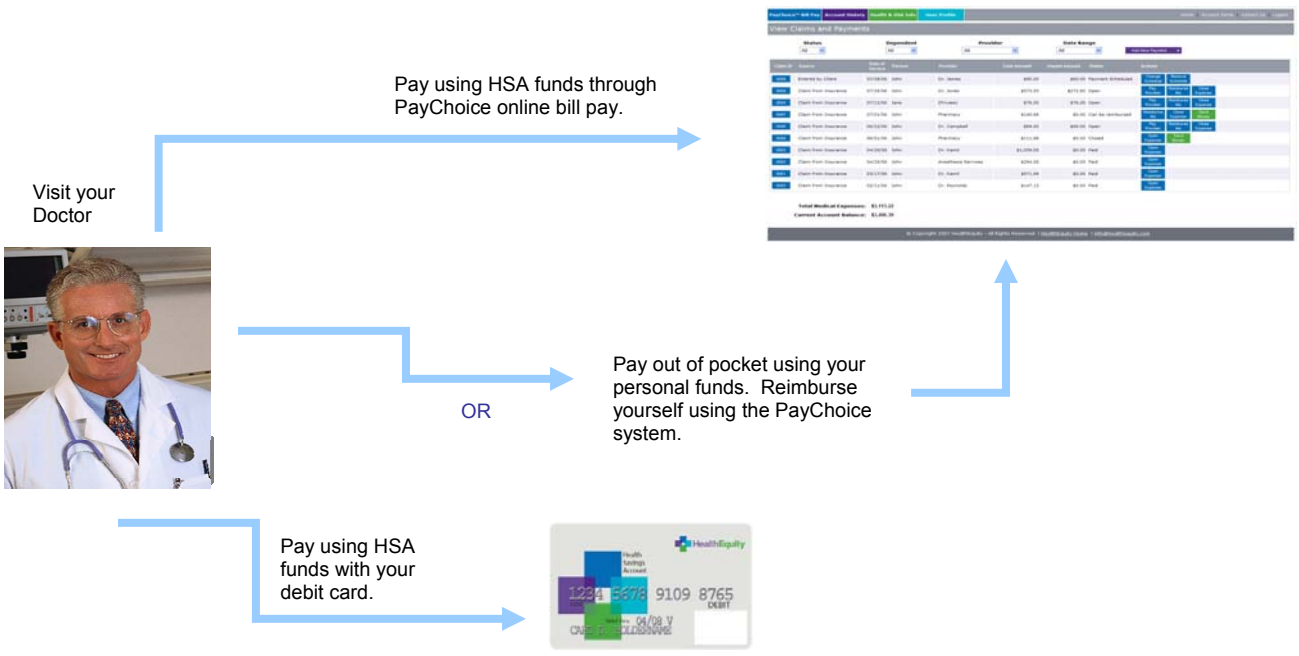
HealthEquity™

PayChoice™ Bill Pay

Organizing and paying your medical claims is easy with the HealthEquity® PayChoice Bill Pay system! Manage your medical records with a click of the mouse at www.MyHealthEquity.com.

Through PayChoice you can:

- Make payments from your health savings account (HSA)
- Reimburse yourself from your HSA
- Create and manage future payment schedules
- Contribute to your HSA
- Record and store your medical claim records
- Create and print monthly and yearly statements

Other Payment Options


In addition to the PayChoice system, HealthEquity also provides an HSA Visa® debit card for easy payment at the point of service. When you use your debit card, the transaction information will be displayed in your PayChoice system. If you use a personal debit card, credit card, or another form of payment not connected to your HSA, you can reimburse yourself for the expense through the PayChoice system and a check will be sent directly to you.
