Limitations & Exclusions¹¹

There are some situations where we will not pay benefits. We will not provide benefits for a chronic illness caused by:

- war or any act of war, whether declared or undeclared;¹²
- intentionally self-inflicted injuries or attempted suicide, while sane;¹³
- commission of a crime or attempt to commit a crime under law;¹⁴
- alcoholism, alcohol abuse, drug addiction or drug abuse;¹⁵
- any period while confined in a hospital, other than if you are confined to a Long Term Care facility that is a distinctly separate part of a hospital;¹⁶
- any period outside the United States, its territories or possessions or Canada for longer than 30 days*;
or
- a Chronic Illness resulting from an ADL (Activities of Daily Living) loss or severe cognitive impairment caused by, contributed to by, or resulting from a pre-existing condition.¹⁷

Pre-existing condition exclusion¹⁷

In some states there is a pre-existing condition exclusion for chronic illnesses which began prior to the effective date of coverage:

The insured has a Pre-existing Condition if medical advice, treatment, care or services including consultation or diagnostic measures or prescription drugs were received or recommended in the six (6) months just prior to the Coverage Effective Date; or the insured took prescribed drugs in the six (6) months just prior to the Coverage Effective Date.

We will not consider for any purposes an ADL loss or onset of Severe Cognitive Impairment that occurs in the six (6) months after the Coverage Effective Date if the ADL loss or Severe Cognitive Impairment is caused by, contributed to by or results from a Pre-existing Condition. If the insured was required to apply for coverage by completing a long term care insurance application and we approved the application, the pre-existing condition provision will not apply to that insured.
